## CARLETON UNIVERSITY: Azrieli School of Architecture + Urbanism

2021-2022      The Drift Directed Thesis Studio (DRS) hosted 13 students whose work foregrounded projects of movement (and movements: narratives, political, spiritual, mystical, alchemical, urban, ecological). The studio welcomed projects that engaged with questions of care and neglect, dissonance and empathy, and projects of liberation and resistance and work that crosses boundaries and edges (across geopolitical borders, disciplinary practices, centers and peripheries, stories and manifestos).
